Sandusky, Ohio

American Colors, Inc., the premium supplier of colorants and outsource manufacturer, announced plans to expand their facility in Sandusky, Ohio with a 12,500 square foot manufacturing addition. Construction will commence in Summer 2022 with completion in the Fall of 2022.

Patrick Militello, Vice President of CASE, stated, “the culture at American Colors has always been customer centric and the decision to expand our Sandusky facility is a commitment to support the needs of our customers and continue to provide the level of service that our customers expect from us.”

This addition is the first phase in a long-term plan to enable the company to purchase and install larger mixers and material handling equipment greatly expanding overall capacity of the location as well as reorganizing the existing footprint to increase capacity and improve efficiency. The company is also planning to build a clean room within the new building which will aid in their expansion into new markets.

Matthew Kosior, President of American Colors, commented that “We continue to have success in our core markets. This investment, coupled with our capabilities across our other plants around the world, reinforces our commitment to support our customers not only for today’s needs, but future needs as well.”

American Colors, Inc., established in 1975, manufactures for and services the CASE, composites, vinyl, and agricultural markets from four locations in the United States and manufacturing facilities in Shanghai, PRC and Bergamo, Italy.
