

## Lab Technician - Sandusky, Ohio

### American Colors, Inc.

American Colors, Inc. is customer-focused manufacturer of liquid colorants and specialty chemicals supplied to diverse applications that include paint, coatings, adhesives, composites, films, and landscape & agriculture. Our laboratory work involves the use of specialized equipment and hands-on activity.

#### Qualifications:

- Laboratory or manufacturing experience helpful, but not required
- High school diploma or equivalent required; basic math, reading, writing, and computer skills
- Willingness to comply with all safety guidelines
- Acceptable color vision, physically capable of manual labor and work 8-hour shifts
- Reliable and punctual with a positive attitude and willingness to work as part of a team

#### Summary of Position:

- Assist laboratory personnel by preparing sample batches, performing quality tests, and conducting formulation trials, including visual and numeric color matching.
- Use logic and reasoning to identify and apply necessary adjustments on products and samples.
- Safely perform hands-on lab work to verify formulations and specifications utilizing equipment and processes including, but not limited to:
  - Particle dispersion by media milling and high-speed mixing
  - Particle size analysis
  - Color spectroscopy
  - Physical testing suite including viscometers, non-volatile analyzer, pH measurement, moisture titration, accelerated weather testing
- Maintain accurate documentation of laboratory activities including but not limited to formulations, test results, status updates, and project reports
- Work as a team with lab personnel to accomplish mutual goals and provide service to our customers.

#### Full-time Employee Benefits:

- Health insurance, optional vision and dental
- 401K retirement program with company match
- ESOP – employee stock ownership plan
- Profit-sharing bonus program
- Continuing education tuition reimbursement
- Paid vacation and holiday time
